trēo™

talk organize connect

The Handspring™ Treo™ communicator does it all.
Now you can have your phone, email, SMS text messaging, wireless web, and
Palm OS® organizer all in one indispensable—and amazingly compact—device.

Treo 180 has a built-in keyboard, making one-handed access easy and thumb typing fast.
Treo 180g features the popular Graffiti® handwriting software.

Treo is a mobile phone

This dual-band world phone* comes with all the features you expect in a mobile phone like speed dial, three-way calling and call history. Plus, it has some great extra features like full integration with the built-in PhoneBook so you can dial direct from your contact list and Instant Lookup so you can easily search for contacts by names or initials.

Treo is a Palm OS organizer

With 16 MB of memory and a lightning-fast processor, the rechargeable Treo communicator has everything you need, including Date Book Plus, PhoneBook (an improved Address Book), To Do List and Memo Pad. And, you can run thousands of Palm OS applications and use HotSync® to backup, update, and transfer data between Treo and your desktop.

Treo is a wireless messaging device

Now you can stay in touch even when you can't use the phone. With Treo you can read and send email from virtually anywhere with the included POP3 email application. If your message is short, you can send an SMS text message to other mobile phone users in your network or to an email address.

Treo is access to the web

Every Treo communicator comes with Blazer™—the award-winning wireless web browser—so you can access virtually any web site from just about anywhere. Get directions, confirm your flight, check the weather—and see it all on Treo's organizer-sized screen.

Treo fits in your pocket

Treo is one of the smallest Palm OS handhelds available and it's still packed with amazing features. We designed it to fit in your pocket without compromising functionality or ease of use.

palm powered™

*Applies only to 900/1900 MHz phone. Certain models will not be available in all regions.

SIDE VIEW

full-featured mobile phone

- Call management features include large number dial pad, speed dial, three-way calling, call history, direct dial from your PhoneBook, caller ID and call waiting.
- Instant Lookup allows you to quickly find anyone in your PhoneBook. Just type or write the first initial and the first few letters of the last name.
- Personal speakerphone allows you to talk and listen hands-free.
- Dual-band phone comes in two versions: 900/1800 MHz (Europe and Asia) and 900/1900 MHz (North America). The 900/1900 MHz world phone can be used in Europe and Asia on GSM 900 networks and in North America on GSM 1900 networks.

powerful Palm OS® organizer

- Includes all the classic applications—Date Book Plus, To Do List, Memo Pad, Advanced Calculator and CityTime world clock—plus a few new ones, like Instant Lookup and an improved PhoneBook.
- Runs the popular Palm OS—and over 11,000 Palm OS applications. Beam information between other Palm-Powered devices and transfer data from your current Palm OS device to your new Treo communicator with ease.
- Comes with a USB HotSync® cable so you can instantly backup, update and exchange information between your communicator and desktop computer.
- Features a rechargeable battery, 16 MB of memory and the fastest Palm OS processor.

wireless messaging

- Send short SMS (Short Message Service) text messages (up to 160 characters in length) to other SMS-enabled phones or any email address.
- Create SMS messages in an instant with shortcuts like saved recipient lists, boilerplate text and signature preferences.
- Send and receive email using the included email application to connect to your business and personal email accounts (POP3 compatible).

wireless web browsing

- Connect to the Internet with Blazer™—the built-in web browser—wireless data services and an ISP account.
- See web pages load an average of four times faster with Blazer. You can even create bookmarks and cache pages for easy access.
- Access virtually any web site—not just those optimized for mobile devices. Blazer supports multiple Web and wireless standards: HTML, WML, HDML, cHTML (i-mode) and xHTML.
- Surf safely. Blazer incorporates 128-bit SSL encryption technology to ensure that visiting any site on your Treo is as secure as browsing from your desktop.
